

DP.C.3. Use of species and genetic status

Data inclusion criteria

Report year: 2016

Country: Denmark

EU Submission: ALL

Re-use: ALL

Animal Species: ALL

Species grouping Level 1: ALL

Species grouping Level 2: ALL

Mammals: ALL

Non-human primates: ALL

Submission Id: ALL

Id 1: ALL

Id 2: ALL

Id 3: ALL

Narrative

This report shows the genetic status of the different species of animals used in procedures.

It shows both the first and all the subsequent uses of the animals completed in the reporting period (unless either option is specifically excluded in the data filtering criteria when selecting the report).

The Data Provider reports allow the creation of standard (public) reports

- before the reports are available for the general public (i.e. non-published data), and
- including information on non-EU submissions (as a default) i.e. Member State specific national data e.g. on animals killed for tissue/organs – unless specifically excluded in the data filtering criteria when selecting the report.

Data filtering criteria has been complemented with an option to filter data into the report also at the level of species groupings.

It should be remembered that by including one data filtering criterion, all others from that selection type are by default excluded. For example: if selecting "mouse" as the animal species, the data on the report will only show the results containing mice. However, if at the same time an incompatible selection is made e.g. selecting species grouping level 2 "birds" (excluding all other groups of species covering also "mammals" (including "mouse")), no data is shown in the report, as the two selections are incompatible.

DP.C.3. Use of species and genetic status

	Not genetically altered	Genetically altered without a harmful phenotype	Genetically altered with a harmful phenotype	Total
Mice	116,039	27,266	11,986	155,291
Rats	44,746	364	1,572	46,682
Guinea-Pigs	3,056			3,056
Hamsters (Syrian)	152			152
Hamsters (Chinese)				
Mongolian gerbil				
Other Rodents	4			4
Rabbits	2,325			2,325
Cats	18			18
Dogs	266			266
Ferrets	2			2
Other carnivores	579			579
Horses, donkeys & cross-breeds	319			319
Pigs	7,923	10	37	7,970
Goats	6			6
Sheep	37			37
Cattle	2,110			2,110
Prosimians				
Marmoset and tamarins				
Cynomolgus monkey				
Rhesus monkey				
Vervets Chlorocebus spp.				
Baboons				
Squirrel monkey				
Other species of New World Monkeys (Ceboidea)				
Other species of Old World Monkeys (Cercopithecoidea)				
Other species of non-human primates				
Apes				
Other Mammals	55			55
Domestic fowl	1,732			1,732
Other birds	373			373
Reptiles	262			262
Rana				
Xenopus	56			56
Other Amphibians	30			30
Zebra fish	3,058	250		3,308

DP.C.3. Use of species and genetic status

	Not genetically altered	Genetically altered without a harmful phenotype	Genetically altered with a harmful phenotype	Total
Other Fish	48,591			48,591
Cephalopods				
Total	231,739	27,890	13,595	273,224
