

DP.C.3. Use of species and genetic status

Data inclusion criteria

Report year: 2015 (APPROVED)

Country: Denmark

EU Submission: ALL

Re-use: ALL

Animal Species: ALL

Species grouping Level 1: ALL

Species grouping Level 2: ALL

Mammals: ALL

Non-human primates: ALL

Submission Id: ALL

Id 1: ALL

Id 2: ALL

Id 3: ALL

Narrative

This report shows the genetic status of the different species of animals used in procedures.

It shows both the first and all the subsequent uses of the animals completed in the reporting period (unless either option is specifically excluded in the data filtering criteria when selecting the report).

The Data Provider reports allow the creation of standard (public) reports

- before the reports are available for the general public (i.e. non-published data), and
- including information on non-EU submissions (as a default) i.e. Member State specific national data e.g. on animals killed for tissue/organs – unless specifically excluded in the data filtering criteria when selecting the report.

Data filtering criteria has been complemented with an option to filter data into the report also at the level of species groupings.

It should be remembered that by including one data filtering criterion, all others from that selection type are by default excluded. For example: if selecting "mouse" as the animal species, the data on the report will only show the results containing mice. However, if at the same time an incompatible selection is made e.g. selecting species grouping level 2 "birds" (excluding all other groups of species covering also "mammals" (including "mouse")), no data is shown in the report, as the two selections are incompatible.

DP.C.3. Use of species and genetic status

	Not genetically altered	Genetically altered without a harmful phenotype	Genetically altered with a harmful phenotype	Total
Mice	117,402	26,059	12,232	155,693
Rats	47,144	398	1,090	48,632
Guinea-Pigs	2,552	91		2,643
Hamsters (Syrian)	172			172
Hamsters (Chinese)				
Mongolian gerbil				
Other Rodents	86			86
Rabbits	1,668			1,668
Cats	59			59
Dogs	174			174
Ferrets				
Other carnivores	886			886
Horses, donkeys & cross-breeds	120			120
Pigs	10,518	19	42	10,579
Goats	11			11
Sheep	47			47
Cattle	555			555
Prosimians				
Marmoset and tamarins				
Cynomolgus monkey				
Rhesus monkey				
Vervets Chlorocebus spp.				
Baboons				
Squirrel monkey				
Other species of New World Monkeys (Ceboidea)				
Other species of Old World Monkeys (Cercopithecoidea)				
Other species of non-human primates				
Apes				
Other Mammals	38			38
Domestic fowl	2,407			2,407
Other birds	438			438
Reptiles	265			265
Rana				
Xenopus	64			64
Other Amphibians	26			26
Zebra fish	2,530			2,530

DP.C.3. Use of species and genetic status

	Not genetically altered	Genetically altered without a harmful phenotype	Genetically altered with a harmful phenotype	Total
Other Fish	17,318			17,318
Cephalopods				
Total	204,480	26,567	13,364	244,411

DP.C.3. Use of species and genetic status
